

# Soil & Water Lab Fall 2015 Seminar Series (BEE 7710)

3:30-4:30pm Mondays in 205 Riley-Robb Hall

- 8/31 Introductions
- 9/7 Holiday (No Seminar)
- 9/14 Investigating Soil Erosion and Conservation in Tropical (Sub) Humid Highlands: Findings from Debre Mawi, Ethiopia  
*Christian Guzman, PhD Student Soil & Water Lab*
- 9/21 *Shai Sela, Postdoctoral Researcher Cornell Soil & Crop Sciences*
- 9/28 *Chaozi Wang, Postdoctoral Researcher Soil & Water Lab*
- 10/5 *Maricke van Leeuwen, PhD Student Wageningen University*
- 10/12 Holiday (No Seminar)
- 10/19 Density-Driven Groundwater Flow: Seawater Intrusion, Natural Convection, and Other Phenomena  
*Clifford Voss, Research Hydrologist United States Geological Survey*
- 10/26 *Olivier Dangles, Research Scientist Institute for Research & Development Ecuador*
- 11/2 *Brian Rahm, Research Scientist NY Water Resources Institute*
- 11/9 *Chelsea Morris, PhD Student Soil & Water Lab*
- 11/16 *John Albertson, Professor Cornell Civil & Environmental Engineering*
- 11/23 Isotope Evidences of Hypoxia Driven Changes in Phosphorus Cycling in the Chesapeake Bay  
*Deb Jaisi, Professor University of Delaware Plant and Soil Sciences*
