

# Soil & Water Lab

## Spring 2013 Seminar Series (BEE 7710)

Mondays 3:30-4:30pm Riley-Robb Hall room 205

**February 18**

*An introduction to Cornell Cooperative Extension and its outreach on private water supplies and other water resources*

Amy Galford, Cornell Cooperative Extension \*

**February 25**

*Effects of hydro-fracking: real vs. perceived, heeded vs. neglected*

Derrick TN Evensen, Cornell NTRES

**March 11**

*The remote monitoring of flow rate based on the surface velocity field and bathymetry inferred from surface turbulence metrics*

Erika Johnson, Cornell CEE

**March 23**

*Is there information in baseflow recession curves that has been overlooked? : A new interpretation of recession analysis*

Stephen Shaw, SUNY ESF

**April 8**

TBD

**April 22**

*Denitrifying Bioreactors*

Zachary Easton, Virginia Tech

For more information please email Sheila Saia (sms493) or Lauren McPhillips (lem36).

\*A special GSA-sponsored happy hour will follow Amy's talk.
